As the Pre-Press industry moves to “Chemistry-Free” processing of Litho-plates the Heights Group have designed & developed a range of finishing units to compliment the latest in Violet plate technology. This development has been undertaken in conjunction with our Media partners.

The Blue Amber Range of products incorporate Pre-Heat, Finishing and Drying technologies from our current range. The resultant device is once again the most Compact available in the market, combined with the highest level of durability synonymous with all Heights processing products.

The Blue Amber is offered in an 850 & 1260 heavy duty format with unlimited throughput capability and in a 620 & 850 medium duty format for customers with a plate throughput of up to 250 m² per week.
