HEIGHTS INCA 7 Polymer Processor

The HEIGHTS INCA range is a new and innovative series of processors with clean crisp design lines which bring elegance and style to the Lithographic processor market, whilst retaining the robustness and durability associated with HEIGHTS processors.

This processor will provide a solution for those customers requiring high quality photopolymer CTP processing applications and is compatible with most plates on the market.

The HEIGHTS INCA 7 processor incorporates all these features within an extremely compact footprint.

LITHOGRAPHIC

HEIGHTS INCA 7 Polymer Processor

Technical Data

Maximum Plate Width
680mm (26.7")
Minimum Plate Length
254mm (10.0")

Plate Thickness
0.15 – 0.30 mm (0.006 - 0.012 ")

Plate Type
Photopolymer
Plate Transport Speed
1000 mm /min (39.6") @ 19 sec Dip to Nip

Pre-Heat Range
Fully adjustable (+/- 2.5°C)

Developer Tank Capacity
23 litre (6.07 US Gallons)
Finisher Tank
3.2 litre (0.85 US Gallons)
Pre-wash Capacity
21 litre (5.50 US Gallon)
Wash Tank Capacity
20 litre (5.30 US Gallons)

Water Supply Connection
¾" BSP (male)
Water Pressure
Mains in regulated to 3 Bar Max
Waste Pipe Dimensions
¾" O/D

Dimensions (L x W x H)
1630 x 1055 x 1065 mm (64 x 41 x 42")
Machine Weight
450kg (990 lbs)

Electrical Supply
200 – 240 VAC Single Phase 50/60 Hz (1Ph + N + E)
200 – 240 VAC Single Phase 50/60 Hz (1Ph + 1Ph +E)
380 – 415 VAC Three Phase 50/60 Hz

Electrical Rating
32A / single phase 16A / three phase
BTU output
13649 B.T.U. / Hour (Estimate)

Recommended Room Temp.
18 - 29°C

Noise
Less than 70 dB (A)

Notes:
Please specify your power requirements with your order.

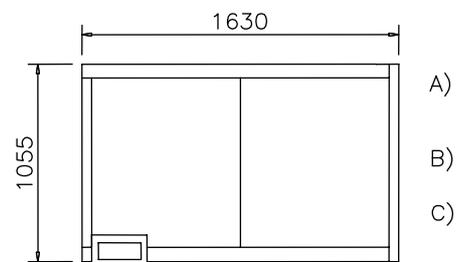

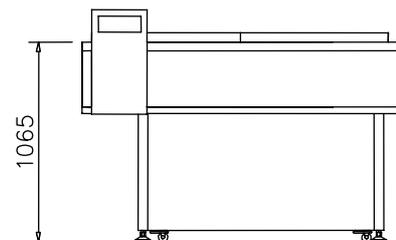

Features

- Developer chiller included as standard
- Four pre-set temperatures to suit different plate gauges (thickness)
- Energy and water saving features

Options

- Platesetter interface
- Internal water recirculation
- Entry and Exit tables
- Platestacker
- Drip Tray

A) Power
B) Water In
C) Waste Out
